WASHINGTON.

As there is no absolute necessity for heavy appropriations for the improvement of harbors, rivers and fortifications under the Engineers Bureau of the War Department, estimates for such improvements amounting to \$20,000,000 will probably be reduced to \$5,000,000.

Estimates in the Postoffice Department have already been reduced so much that no further extension of railroad postal service can be made during the present fiscal year.

Congressman Lathrop says, with reference to comments on his vote on the salary bill, that he consulted and voted all the way through with Hale, Cox, Kasson and other leading members in favor of the total repeal and of the reduction to the old pay of \$5,000. He and they voted against the amendment calculated to prevent total repeal, and therefore voted against the substitute bill which was finally passed, by one majority, fixing the pay at \$4,000, an increase of at least \$500 per annum.

Lathrop will, after the holidays, introduce a bill granting two sections of land per mile to the State of California to construct a military wagon road from the Delta Mills, Siskiyou county, via Sawyer's Bar and Arcato to Ukiah, Mendocino county; and also a branch to Fort Jones, via Happy Camp, Del Norte county, to intersect the main road at Orleans Bar, Klamath county. The precedents for such a grant are found in legislation for Oregon, Washington Territory and Wisconsin.

Lieutenant George Bradley has been detached from the Tuscarora, and ordered to the receiving ship Independence at Mare Island.

A patent was issued to-day to E. E. Rice for the Alban lode, in Storey county, Nevada, to be forwarded by his attorney.

REMOVAL

—OF THE—

LOS ANGELES POULTRY MARKET.

WE HAVE THIS DAY MOVED</

The DAILY HERALD has nearly DOUBLE the Circulation of either contemporary paper published in Los Angeles. As an advertising medium it is consequently of DOUBLE their value.

A Plea for Light.

The city of Los Angeles is supplied with gas works and yet the streets are unlighted. The benighted pedestrian must feel his way about town, by the aid of a bull's-eye lantern, or run the risk of breaking his neck over our uneven grades, in total darkness. Numerous buildings in the city are lighted without the aid of the Gas Company. Some have gas machines and manufacture their own gas. Others resort to coal oil lamps, and as many as possibly can, avoid patronizing an institution that is ordinarily supposed to be a great public convenience. That there is some reason for this is evident. Our people are neither penurious, nor old fogies, and the fact that we are practically on exhibition all the time, being visited by thousands of people from the Eastern States, makes them the more anxious that the city should put its best foot foremost. The explanation simply is, that the quality of the gas is so bad, and the price so exorbitant, that no one will use it who can help doing so, and the city authorities do not feel justified in incurring the expense, even for a matter so important as lighting the streets. Some years ago the Common Council of this ring-ridden city, granted to one of its favorites the exclusive right for twenty years to erect gas works and lay pipes in the streets. No stipulations as to price or quality were made, but the citizens of Los Angeles for a score of years were turned over to a soulless monopoly, to be bled to the extent of their ability to stand the drain. The result is easily guessed. The gas, manufactured on all manner of garbage is miserable stuff and it is sold at an exorbitant price. It smells like a decayed skunk, and the room where it is used is all the time filled with a dense smoke, injurious to the lungs, and ruinous to the eyes. For this abominable stuff, our citizens are obliged to pay \$7.50 per thousand, twice as much in fact as good gas could be sold for, and three times what it costs to manufacture a good article with a small gas machine.

If we wish to have our city lighted, we must pay \$6 per month for each lamp or \$72 per annum. The people of Sacramento are growing because a contract has been made at \$3.50 per month, and almost anywhere the latter sum would be thought ample pay for lighting the streets with a good quality of gas, manufactured from coal. We see no means of escaping this outrageous tax, short of breaking up the monopoly. We must either put up with the exactions of the gas company for thirteen years, or by a united effort, either overthrow it or bring it to terms. It is the opinion of eminent lawyers, several of whom have held high judicial positions, and are therefore well qualified to judge, that there is no foundation in equity for this monopoly. They hold that the City Council had no right or authority to grant such exclusive privileges as were given to this company to the manifest injury of the public, and it is their belief that the Courts will refuse to sustain such an invasion of the people's rights. If a single individual, however, undertakes the task of fighting this monopoly. It is a matter that the whole community is interested in, and the joint efforts of all citizens should be directed to the accomplishment of the needed reform. Not only have we a right to complain of the quality and price of the gas, but the location of the works is in itself a nuisance that calls loudly for abatement. They are right in the center of the city, within a stone's throw of our principal hotel, and surrounded by handsome residences. Even if the gas were made from decent materials it would be intolerable, but when the grounds are made the store-house of rotten grape pomace, and all manner of filth and garbage, it is simply astonishing that the people will put up with the continued presence of the nuisance. The depreciation of property occasioned by the presence of the gas-works is itself a serious matter, and we see neither reason or justice in allowing it to remain. The attention of all well-wishers of our city is called to this question. Our columns are open to a temperate discussion of the subject, whether the views expressed agree with our own or not, and no one need complain that he cannot be heard.

There are some people who are never satisfied unless they can have their own way. The *Express* has undertaken to fight Gen. Banning's battles, and to defend his wharf through thick and thin. Hence it is no more than was expected, that it should throw cold water on the proposition to build a road to Santa Monica. It knows very well that this project is receiving the attention of practical men, and that it is thought by those who are in a position to know best that it offers by far the cheapest and quickest way out of our difficulty. But then the building of such an improvement would be the death of

lighterage, and Banning's proposed wharf, so of course we find the *Express* is on the side of monopoly, and against the people. The sunken rocks at Santa Monica, are fabricated off of the same piece as the *Express*'s seven feet of water at Wilmington at extreme low tide.

Appointment of Cushing.

The appointment of Caleb Cushing as Minister of Spain is one of the redeeming features in Gen. Grant's administration, that occasionally flash to the surface, only to exasperate us that they are so infrequent. No other man in the United States is so well-fitted by nature and education, for the delicate and important work of conducting our relations with that country, and no one that could have been selected would be apt to manage affairs at Madrid with less reference to the effect of his position on political matters at home. Cushing is a veteran diplomat, and unlike many of our foreign ministers is an educated, polished man. He will fill the position of minister with much more dignity and ability than Sickles, who, however well he was adapted to the field, was certainly not a success as a diplomatist.

Lumber.

During the year 1872, a little over 7,500,000 feet of lumber was received in this city, and for the year just coming to a close the amount will reach, if it does not exceed 10,000,000 feet. As our city increases in size, and the country surrounding it is settled up, the consumption of lumber will be greatly augmented. To reduce the cost of this indispensable article, and thus facilitate the development of the country is a matter of importance to every body. Lumber is cheap in Oregon, but dear in Los Angeles. The expense of getting it here is what counts, and a large portion of this expense is occasioned by the necessity for lighterage, at Wilmington. The freight from the anchorage to Los Angeles is \$7 per thousand, at least \$4 of which is for lighterage. On the lumber received here during 1873, this will amount to \$40,000, a very respectable tax to pay in one year on a single article.

The Products of Los Angeles County.

Though far from the most populous county in the State, ranking the seventh, Los Angeles produces more corn, peanuts, beans, castor beans, onions, tobacco, wool, honey and wine than any other county in the State. It has more grape vines, orange trees, lemon trees, and more horses, mules and sheep. In tobacco it stands alone, producing 25,000 pounds. Of wine it produces double what any other county does. For a county of only 19,000 inhabitants its products are tremendous, and they are only beginning to show themselves. The progress in the past three years has been very rapid, and yet our resources are only beginning to attract attention.

The story of a man who was so transformed by sickness that his wife didn't recognize him, on his return from a six months' absence is floating through the papers, and a great marvel is made of it. We see nothing strange in the occurrence. We have known a man to just step down street "to see a friend" and after only a few hours' absence, return in such a condition that even his dog wouldn't acknowledge him.

A VERY handsome office for the use of the Western Union Telegraph Company has been fitted up in the rooms of the Sergeant at Arms of the Assembly, at Sacramento. This will be a convenience to both the company and the members of the Legislature, and will facilitate the transmission of legislative news.

A capitalist in Oakland intends to keep 300 mechanics busy all the coming season in the erection of new buildings.

Thirty-eight more acres have been deeded to the Lick Observatory on Lake Tahoe, making in all 215 acres for the site.

A gas company has been organized at Red Bluff. It is expected by the first of March, 1874, the town will be lighted by gas.

The rainfall thus far this season is said to be unprecedented in Sonoma county. At Santa Rosa, the amount fallen is 25.25 inches, while the gauge at Healdsburg measures 14.44 inches.

A new weekly newspaper will be issued at Grass Valley on the 1st of next month, under the control and management of S. G. Lewis.

James Phillips, of Upper Lake, reports that from a bean field planted last April, he harvested an average yield of 1,540 pounds per acre, which, at five cents per pound, would give the producer \$92.30 cents.

President Gilman, of the State University, declines to lecture before the Teachers' Institute at San Jose, because he has lectured in that city twice during the year. The people are anxious to hear him again.

There are but eight or nine patients in the hospital at Pioche, Nevada, a fact which speaks well for the general health of the camp.

A house in Upper Austin, Nevada, is said to be haunted. Strange and unusual noises are heard about the hour of midnight, when graveyards yawn, etc. The noises proceed from the apartment of the hired girl.

One establishment, says the *American Manufacturer*, employing a hundred men will support an additional five hundred people. Three hundred families will disburse annually, on an average, \$240, or \$75,000 in the aggregate. This money will be drawn into the town from the outside where the manufactured goods are consumed and the interest of \$75,000 at ten per cent, would be \$7,500. These hundred families, too, would require a hundred houses, thousands of pounds of agricultural produce, and thousands of yards of cotton and woolen goods, thus giving health and impetus to every branch of industry.

COMMITTEE.

Bunker Hill.

A little over a year more, and the 100th anniversary of the Battle of Bunker Hill will take place. A little band of heroes, then inaugurated a struggle, which brought untold results. It is very fitting that their deeds should be commemorated. The nation at large is very justly arranging for a celebration on an extensive scale, of the centennial anniversary of this event. This will instill patriotic impulse into the souls of those of the coming generations, and prepare them for the struggles, which they, in life, must undergo. Overhanging Los Angeles is a hill similar to Bunker Hill—may, it is larger. From it all the city can be seen and the country for miles around. On this hill also, are military marks, the remains of a fort, which was built for the protection of liberty in this State. This hill has an avenue running along its crest, and our friend Beaudry, through whose influence chiefly it has been opened, has very appropriately named it Bunker Hill avenue. The City Surveyor has been ordered to define the grades and lines of Olive, Charity, and Bunker Hill avenue, from Hill to Hope; Second street, and Temple street, from Hill to Hope. This will bring these lands within easy reach of the business part of the city. The distance to the Court House is less than it is from the Turners Hall.

Mr. Beaudry being the owner, by perfect and indisputable title, offers the following scheme, believing that it supplies a felt want.

His various tracts have been surveyed, and platted in lots of convenient size for residences, upwards of two hundred in number, and the maps, together with abstracts of title, are kept for public inspection at his office, opposite the Pico House.

Any person desiring to purchase can inspect the land, select his lot or lots, and acquire the same, if not previously taken up by another, upon the following terms: Purchasers not being restricted to a single lot.

The purchaser or his successor to pay the fixed price of the lands selected by him in equal monthly installments, as follows: On lots valued at \$400 and upwards, but not to exceed \$300, \$15 per month; on those valued at \$300 and upwards, and less than \$400, \$10 per month. Payments in gold or currency, and no interest demanded. For cash, in hand a reduction of fifteen per cent. will be made.

The purchaser to have immediate possession upon payment of the first installment and on execution and delivery of contract.

The right of the purchasers may be assignable by him, and his assigns to succeed to all his privileges and liabilities; standing in all respects towards the vendors as original obligors.

Purchasers shall not be restricted to the payment of the installments as above shown, but may make payments in advance, and on all such payments he will allow one per cent. per month, from the date of payment until said payment would become due.

Upon selection of a lot or lots by a purchaser, and payment of the first installment, will give dollars, in U. S. gold coin, as expenses on the document, Mr. Beaudry with the purchaser, will execute and acknowledge a sealed agreement, embodying the above conditions; and, upon full payment, according thereto, the undersigned will execute and deliver to the purchaser, or his lawful representatives, on demand, a good and sufficient and absolute deed of conveyance of the contracted lands, in form of warranty against grantor, the grantee paying the cost of such deed.

These proposals will be kept open until the 1st day of February, 1874. The location is very desirable. All that has heretofore been lacking is water, and that want is now fulfilled. Anywhere else, in as desirable location, lots readily command from \$500 to \$1,000 and even higher rates. This property is put up for sale at a low price of from \$300 to \$400. But this is not all. This may be paid in currency and a reduction of fifteen per cent will be made for cash in hand.

THE HOWE MACHINE CO.'S SEWING
MACHINES have become celebrated the world
over. The work done in these machines is un-
surpassed—sewing the thinnest material and
the heaviest goods with equal facility, and re-
quiring no extra adjusting for uneven thick-
ness or passing over seams.
The Attachments for Hemming, Felling,
Binding, Cording, Quilting, Tucking, Binding
and Gathering are of the latest improved pat-
terns, and are superior to those used on any
other machine.
THE HOWE MACHINES are the STRONG-
EST and SIMPLEST, and seldom or never
give any trouble in operating. They are the
oldest established in the world (Mr. Howe
being the original inventor), and are in ad-
vance of all others in improvements and per-
fection of mechanism.
